Full-Service E-mail Campaign Lead Generation

Full-cycle e-mail marketing to reach the best leads from freight forwarders and shipping agents worldwide. We focus exclusively on e-mail marketing for logistics and truly understand what shipping agents need to run a profitable business.

What's Included in a Full-Service E-mail Campaign?

A complete solution: content, infrastructure, deliverability, reporting — all managed by our team, optimized for logistics outreach.

Randomized Texts with 10,000+ Variations

01

We create unique e-mail content with randomized subject lines and body structures. This helps bypass spam filters and keeps your messages looking personal.

Clean Headers, Human Format

02

No technical traces of bulk sending. Your message looks like it was typed and sent by a real person — not a bot.

Dedicated Domain & SMTP Infrastructure

03

We use a clean, exclusive domain and SMTP server with a trusted IP address — ensuring maximum deliverability and protecting your brand.

Controlled Sending Schedule

04

We send e-mails gradually — by hour, per day, and only on weekdays — to simulate real human outreach and reduce filter risks.

Inbox-Optimized Warm-Up

05

We gradually warm up the sending domain and IP through human-like activity. This builds sender reputation and helps your campaign reach inboxes instead of spam folders.

Client Dashboard with Campaign Stats

06

Access a real-time dashboard to monitor sent volume, bounce statistics, and overall campaign progress — all in one place.

How It Works?

From First E-mail to Long-Term Logistics Partners!

In logistics, e-mail is the main way to start business communication.

We begin by sending messages to cold contacts — not to sell right away, but to start a real conversation.

Step by step, this turns into trust, clear needs, and business opportunities — leading to deals and repeat clients.

Outreach Launch

Targeted e-mail campaign sent to verified logistics contacts to start the conversation

Replies & Relationship Building

Engaged prospects respond — you begin dialogue and build trust step by step

Inquiries Based on Real Needs

Leads share their specific logistics requirements, opening the door to real opportunities

Deals & Partnerships

You close qualified deals and turn conversations into long-term clients or agents

Repeat Business & Retention

Successful cooperation leads to follow-up orders and sustained business relationships

Client Dashboard with Campaign Stats

Access a real-time dashboard to monitor sent volume, bounce statistics, and overall campaign progress — all in one place.

Spam-Safe Campaigns

Every e-mail campaign is pre-tested to meet key spam filter criteria. Our configuration ensures clean headers, trusted domains, and high inbox delivery rates — not just avoiding spam, but also minimizing placement in promotion folders.

Check email for spam - Spam-test newsletter

Inbox-Ready E-mails

All campaigns are tested for spamminess before launch — our setup ensures maximum deliverability, clean reputation, and minimal risk of landing in promotions or spam. It's not about sending e-mails — it's about making sure they're delivered to the inbox where they get opened.

Clean E-mail Headers

We remove technical headers typical for mass mailing tools — such as X-Mailer, List-Unsubscribe, and others — which often trigger spam filters.

Your messages are structured to look like they're sent by a real person, not an automated system.

Technically Clean Mailings

Clean, human-like headers improve inbox placement, reduce spam risk, and increase open and response rates.

This small but critical detail helps every campaign perform better.

Warm-Up Service for Maximum Deliverability

We gradually warm up your domain and IP addresses by simulating real e-mail activity. This process helps build sender reputation, avoid spam filters, and ensure your campaign gets delivered to real inboxes — not blocked or flagged.

Simulates Real E-mail Activity

01 Sends test e-mails between real mailboxes to imitate human communication patterns

Gradually Increases Sending Volume

02 Starts with a few e-mails per day and scales up smoothly to build trust with spam filters

Engages in Realistic E-mail Behavior

03 Opens, replies, marks as important — to signal positive interaction to mail providers

Improves Domain & IP Reputation

04 Builds a clean sender history that increases inbox placement and reduces bounce risk

Near-Zero Spam Rate

Our campaigns consistently maintain a clean spam reputation according to Google Postmaster Tools — confirming the effectiveness of our warm-up, content structure, and delivery logic.
